Gorwel Update		Information
Crynodeb o'r Materion / Summary of Issues		
<p>Due to time constraints at the last meeting, I took an action to update members on the Gorwel Data Dashboard/application.</p> <p>You will recall that we have been working together with the three PSBs across the Southwest Wales region to develop a data application called Gorwel which it was hoped would assist us in the future with our Local Wellbeing Assessments and data gathering. The development was being funded by the regional PSB support Grant.</p> <p>The application has been under development for quite some time and over the last 18 months we have maximised efforts on the project through the recruitment of a regional data coordinator (also funded by the regional PSB support grant).</p> <p>Unfortunately, there have been continuing technical challenges and delays with the development of the application. More lately some significant doubts have arisen over its potential to meet our needs despite the extensive efforts of our Coordinator to support the developers.</p> <p>Due to these factors agreement has been reached with Welsh Government to cease further development of the Gorwel application and to re-purpose the regional PSB support grant towards enriching our access to community level data and engagement.</p> <p><b>Regional Activity</b></p> <p>The regional data co-ordinator, Neil Coetzee, will remain in post and continue to work across the three PSB's to provide a regional lead assisting PSBs in the identification and cultivation of sources and opportunities for better community engagement and involvement.</p> <p>The co-ordinators' role will expand from being purely focused on development of our use of formalised national data sources, to targeting those hard-to-reach sources of community information which will improve future assessment of Local Well-being and plans.</p>		
Goblygiadau Ariannol / Financial Implications		

n/a
Argymhellion / Recommendations
That the PSB note the update on Gorwel.
